JULIAN BOGDANI

My main field of experience, in both education and work, is the ancient world.
I've always tried to face the archaeological and historical heritage through a communicative approach,
which brought me to find innovative paths of management and enhancement of the archaeological
and cultural potentials of the territories I've studied and analyzed.
In particular, the deep experience in the development of GIS systems applied to the cultural heritage
has been fundamental to understand the best means of preservation and valorization of the cultural
resources of a specific site, creating communicative platforms between the different stakeholders
involved in the territorial management (Municipalities, Provinces, Regions, Superintendencies,
Academic and Research institutions). This thanks to a strong belief that cultural heritage and in
particular archeology, seen in the wider context of the geographical and landscape resources, is one
of the best ways to catch the people's attention on the specificity of a territory, and to enhance the
general potentials of an entire region. This is true for Italy, but also for other countries in which I had
*the opportunity to work, such as **Albania**, **Iran** and **Iraq**.*
The recent involvement in the creation of web platforms (server side archives and web GIS) for the
collaborative networking has increased my experience in the field of the management and valorization
*of the cultural heritage: the **creation of a webGIS of the archaeological sites of the Southern***
***Albania (SITARC: http://www.phoinike.com/sitarc)**, able to gather different information on the*
*archaeological patrimony of the region, and the **realization of the web portal on the Punic***
Algeria (Cherchel Project, in collaboration with CNR, Italy: http://www.cherchel-project.eu)
has become best practices in the international outline and brought to significant results in the
knowledge of the cultural heritage and in the plan of sustainable development strategies.

Work experiences (archeology)

2010-2009	–	Archaeological documentation in Erbil and Sulaymaniya, Iraq Project: Tutela del patrimonio culturale della Regione Curda in Iraq, by IslAO (Istituto Italiano per l'Africa e l'Oriente).
Since 2000	–	Excavations and researches in the Hellenistic and Roman town of *Phoinike* (Delvina, Albania) and in the territory of the ancient Caonia (Southern Albania – http://www.phoinike.com) University of Bologna.
Since 2003	–	Excavations and researches in the Roman town of *Suasa* (Castelleone di Suasa, Ancona, Italy) University of Bologna.
2007-2009	– –	Organization of the summer school "Seeing beneath the soil" (www.groma.info/summerschool/) University of Bologna. Field survey in the territory of ancient Caonia (Southern Albania) for the SITARC project (www.phoinike.com/sitarc) University of Bologna, Institute of Archeology (Tirana, Albania).
2009	–	August: Excavations at the church of San Lorenzo at Dimaro (Trento, Italy) Soprintendenza per i Beni Archeologici e Librari di Trento.
2005-2006	– –	Excavations and researches at the Roman *castrum* of *Burnum*, Drniš (Šibenik, Croatia) University of Bologna. Excavations, researches and surveys at the Medieval castle of Acquaviva Picena (Ascoli Piceno, Italy) University of Bologna.
2006	–	Topographical survey of so-called the monument of Cesio Sabino at Sarsina (Forlì-Cesena, Italy) University of Bologna.
2005	– – –	Excavations and researches at the Achemenid and post-Achemenid site of Tange-ye Bolaghi, Fars, Iran Sinvad Dam Project: Parsa Pasargadae Research Foundation and University of Bologna. Photogrammetric survey of wall paintings at Herculaneum (Naples, Italy) University of Bologna. Topographical survey and GPS positioning of the Roman theater of Mevaniola (Forlì-Cesena, Italy) University of Bologna.
2004-2003	–	Excavations and topographical surveys at the proto-historical necropolis of via Belle Arti (Bologna, Italy) Soprintendenza dei Beni Culturali dell'Emilia Romagna.
2003-2001	–	Topographic surveys in the territory of Northen Epirus (Caonia). University of Bologna.
2002-2001	–	Excavations at the Late-Antique town of Galeata (FC, Italy).
